

Andre Lombard

vCISO

CORE SKILLS

- ISO/IEC 27001:2022
- CIS standards
- PCI DSS
- DevSecOps
- Azure
- Cloudflare
- Microsoft Security
- NIST
- CIS controls
- Firewall IPS
- DDOS
- WAF
- ITIL
- Agile
- Cybersecurity strategy

CERTIFICATIONS

- CIS Member Accreditation
- CQI and IRCA Certified ISO/IEC 27001:2022 Lead Auditor
- CISSP
- Cloudflare Security Architect
- Fortinet Certified Professional Security Operations
- Fortinet Certified Specialist Security Operations
- Fortinet Enterprise Firewall Administrator
- Fortinet Security Operations Architect
- Cisco Networking CCNP
- Cisco Security CCNP Security

EDUCATION

- CQI and IRCA Certified ISO/IEC 27001:2022 Information Security Management Systems Lead Auditor Training Course
- Information Security Management System (ISMS): Implementing ISO/IEC 27001:2022
- CISSP Certification

PROFESSIONAL SUMMARY

Highly skilled Security Architect and Information Security Officer with extensive experience in cybersecurity strategy, ISO/IEC 27001:2022 implementation, and DevSecOps. Proven expertise in designing and implementing secure infrastructures, conducting audits, and aligning organisations with international security standards such as NIST, CIS, and PCI DSS. Adept at leading cybersecurity initiatives across cloud platforms including Azure and Cloudflare, with a strong focus on compliance, risk management, and operational excellence.

PROFESSIONAL EXPERIENCE

vCISO

- Various Local and Multinational Clients2024 - Present
- Providing virtual CISO functions for local and multinational organisations.
 - Developing cybersecurity products and services tailored to client needs.

ISO 27001 Lead Auditor

- Various Local and Multinational Clients2023 - Present
- Conducting ISO 27001:2022 GAP audits, internal audits, and full implementations.
 - Ensuring compliance with ISO 27001:2022, 42001, and 22903 standards.

DevSecOps Consultant

- Various Local and Multinational Clients2023 - Present
- Providing architectural and engineering consultations for DevSecOps initiatives.
 - Enhancing security measures within DevOps environments.

SOC Architect

- Various Local and Multinational Clients2021 - Present
- Designed and implemented a full cybersecurity SOC in Azure.
 - Migrated infrastructure from on-premises to Azure with robust security layers.
 - Maintained PCI DSS compliance for four consecutive years.

Cloudflare Architect

- Various Local and Multinational Clients2016 - Present
- Architected application security, ZTNA, and SASE solutions across EMEA.
 - Enhanced Cloudflare security frameworks for enterprise clients.

Microsoft Azure Security Architect

- Various Local and Multinational Clients2018 - Present
- Designed and implemented multiple medium and enterprise Azure environments.
 - Integrated Microsoft Security solutions into client infrastructures.

Cybersecurity Consultant

Various Local and Multinational Clients

2012 - Present

- Developed cybersecurity frameworks aligned with NIST and CIS standards.
- Conducted discovery workshops and remediation to prepare clients for audits.

Security Architect

Various Local and Multinational Clients

2005 - 2016

- Designed and implemented secure telco POPs with Firewall IPS, DDOS, WAF, and backbone routing.
- Led consecutive refresh cycles over 12 years for global telco networks.

KEY ACHIEVEMENTS

- Successfully maintained PCI DSS compliance for four consecutive years.
- Designed and implemented a robust cybersecurity SOC in Azure.
- Developed a cybersecurity framework aligned with NIST and CIS standards.
- Architected secure telco POPs for global networks over multiple refresh cycles.
- Provided strategic cybersecurity leadership across multiple global architecture boards.
