

Girly Nomvula Lebelo

Safety Officer Intern

CORE SKILLS

- Vulnerability Assessment
- Penetration Testing
- Incident Response
- Threat Analysis
- Linux Systems Administration
- Network Configuration
- Wireless Security
- Firewall Protection
- Endpoint Protection
- Risk Assessment
- Security Policy Development

CERTIFICATIONS

- CompTIA Network+
- CompTIA Security+
- CompTIA PenTest+
- CompTIA CySA+
- CompTIA CASP+
- National Certificate: Safety in Society
- SHEMTRAC
- First Aid
- Firefighting
- Risk Assessment
- SHE Representative
- Emergency Coordination
- COVID-19 Coordination

EDUCATION

- Higher Certificate in Information Systems (Cyber Security) - EDUVOS (2024-2025)

PROFESSIONAL SUMMARY

Cybersecurity and Information Systems graduate with a strong technical foundation in networking, Linux systems administration, penetration testing, and enterprise security architecture. Demonstrates hands-on experience in vulnerability assessment, incident response, system hardening, and network security through academic projects and certifications. Adept at developing security policies, conducting risk assessments, and implementing robust cybersecurity measures.

PROFESSIONAL EXPERIENCE

Safety Officer Intern

Little Rocky Development Projects

May 2018 - December 2019

- Conducted occupational health and safety inspections to ensure compliance with regulations.
- Identified workplace risks and compliance gaps, recommending corrective actions.
- Assisted in incident investigations and prepared detailed reports.
- Prepared safety documentation and maintained accurate records.
- Provided first aid and emergency response support during workplace incidents.

KEY ACHIEVEMENTS

- Achieved distinctions in key modules including Linux Administration (86%), Network+ (92%), and PenTest+ (90%).
- Completed practical projects in penetration testing, vulnerability assessments, and enterprise security architecture design.
- Developed and implemented security policies and risk assessments as part of academic coursework.
