

Henco Freidberg

Cisco Security and Network
Engineer

CORE SKILLS

- Cisco routers and catalyst switches
- Cisco WLAN Controllers and Prime Infrastructure
- Cisco VoIP (Call Manager, Call Manager Express)
- Meraki switches
- HP switches
- Fortinet (Fortigate, Fortimanager, FortiAP)
- Riverbed CX models Steelhead
- SolarWinds Network Performance Monitor, Netflow, and Topology Mapper
- Radvision Video Conference
- Dell and HP servers
- Kaspersky Endpoint Protection
- Network design and implementation
- Network troubleshooting and performance optimisation
- IT security and compliance
- Project management
- Vendor management

CERTIFICATIONS

- Cisco CCIE Enterprise Infrastructure
- Cisco CCNP Datacenter
- Compia A-Plus
- Compia N-Plus
- Compia Server Plus
- Microsoft SERVER 2008R2
- Microsoft Desktop Support Technician
- International Computing Drivers Licence
- Cisco CCNA Wireless
- ITIL Foundation v3

EDUCATION

- International Computing Drivers Licence (ICDL)

PROFESSIONAL SUMMARY

A highly skilled Network Engineer with over 10 years of experience in designing, implementing, and managing complex network infrastructures. Proficient in a wide range of networking technologies including Cisco, Fortinet, and SolarWinds, with a proven track record of delivering robust and secure solutions. A proactive problem-solver and team player with a strong focus on process improvement, customer satisfaction, and knowledge sharing. Adept at working in dynamic environments and managing large-scale projects with a commitment to excellence and innovation.

PROFESSIONAL EXPERIENCE

Cisco Security and Network Engineer

Kapsch South Africa (SANRAL Pty Ltd & Transport Infrastructure Ireland) Jan 2022 - Apr 2025

- Proactively monitored and managed the network infrastructure hosting SANRAL E-TOLL systems.
- Designed, installed, configured, implemented, supported, and administered network systems and solutions.
- Managed operational implementation of network hardware and systems management software for Cisco and FortiGate systems.
- Administered Cisco network devices using Cisco ACL and Prime.
- Oversaw Fortinet security devices, including FortiGate, FortiMail, FortiWeb, and FortiAuthenticator.
- Led implementation projects, upgrades, and rollouts of network equipment and systems.
- Provided skills transfer and in-house training to team members.
- Ensured SLA compliance and adherence to client policies and regulations.

Senior Network Engineer

Sizwe Africa IT Group

Sep 2019 - Dec 2021

- Managed projects involving new Cisco ACL hardware installations, including design, deployment, and configuration.
- Supported and maintained network infrastructure at key organisations, including the South African Reserve Bank, South African Revenue Services, and Financial Service Conduct Authority.

Network Engineer

G4S (South Africa)

Dec 2017 - Jul 2019

- Monitored and managed network services across Africa and Europe to meet service levels.
- Ensured delivered systems met acceptance criteria and service level agreements.
- Proactively managed services to pre-empt and resolve failures before reaching critical status.

- Reviewed and approved changes to network infrastructure via change management procedures.

Network Engineer

ENRC/ERG Management (South Africa)

Oct 2013 - Nov 2017

- Provided dedicated 3rd-level support across the African region.
- Performed onsite installation, configuration, and administration of network devices in Zambia and DRC.
- Managed in-house data centre network, power, and server hosting.
- Architected new network rollouts and created project timelines and dependencies.

Support Engineer

Ecotech Converge (South Africa)

Sep 2012 - Sep 2013

- Provided 1st and 2nd level support to ENRC/ERG Management SA.
- Rendered end-user support for laptops, desktops, mobile phones, video conferencing, printers, wireless, servers, and VoIP.
- Created, updated, and resolved incidents and requests in Remedy.

Field Engineer

Gijima (South Africa)

Aug 2009 - Aug 2012

- Provided 1st and 2nd level support to ABSA Bank.
- Managed operational expenses and logistical movements.
- Demonstrated client-centric behaviour and fulfilled the role of Client Service Manager.

KEY ACHIEVEMENTS

- Achieved Cisco CCIE Enterprise Infrastructure certification (CCIE #69522).
- Successfully led multiple large-scale network implementation and upgrade projects.
- Provided critical support for high-profile clients, including SANRAL, South African Reserve Bank, and G4S.
- Consistently ensured SLA compliance and optimised network performance.
- Mentored and trained team members, fostering knowledge sharing and skill development.
