

Isaac Rantu Mongae

ACI Consulting Engineer

CORE SKILLS

- Data Centre Networking
- Cisco ACI Fabric Operations
- Tenant & Policy Model Design
- Bridge Domains
- Endpoint Groups (EPGs)
- Contracts (Cisco ACI)
- BGP L3Out Configuration
- MPLS Core Networks
- MP-BGP
- OSPF
- IP Backbone Operations
- FortiGate Firewall Configuration
- FortiGate Firewall Support
- IOS-XE
- IOS-XR
- NX-OS

CERTIFICATIONS

- CCIE Enterprise Infrastructure
- DCACI

EDUCATION

- Bachelor of Business Administration, CIDA City Campus, Johannesburg (Jan 2006 - Dec 2009)

PROFESSIONAL SUMMARY

Senior Network Engineer with 15 years of experience in designing, implementing, and supporting large-scale service provider and enterprise networks. Specialised expertise in Data Centre networking and Cisco ACI, including fabric operations, tenant design, and L3Out integrations. Proven track record in delivering data centre migrations, fabric deployments, and integrating traditional L2/L3 networks into ACI-based architectures while ensuring high availability in mission-critical environments.

PROFESSIONAL EXPERIENCE

ACI Consulting Engineer

Cisco

Aug 2025 - Current

- Managed and configured Vodacom ACI fabric.
- Led migration of Layer 2 and Layer 3 services into ACI fabric.
- Collaborated with application owners to onboard and deploy services within ACI.
- Designed, implemented, and troubleshoot BGP L3Out configurations.
- Resolved ACI-related tickets and handled escalations.

Senior Specialist: Network Engineer

Altron

Apr 2024 - Jul 2025

- Supported and maintained MPLS core network for service provider operations.
- Configured, troubleshoot, and maintained FortiGate firewalls.
- Designed and managed ACI fabric and tenant policies.
- Integrated ACI fabric with existing networks.
- Operated and supported Service Provider and Data Centre networks in hosted environments.

IP Core - Specialist Network Engineer

Vodacom

Oct 2021 - Mar 2024

- Provided high-level support and day-to-day maintenance for the IP Core backbone and Data Centre.
- Evaluated and implemented new IOS-XE, IOS-XR, and NX-OS software releases for network elements.
- Configured and managed ACI Fabric and tenant policies.
- Developed lab ACI solutions and tested migrations from L2 DC networks to ACI.

Systems Engineer

Altron Systems Integration

Jan 2017 - Sep 2021

Network and Voice Engineer

Altron Systems Integration

May 2015 - Jan 2017

Network Engineer

INET BFA

Dec 2014 - Apr 2015

Technical Support Specialist

Nebula

Nov 2013 - Oct 2014

IP Telephony Engineer

Dimension Data

Feb 2011 - Oct 2013

Network Engineer Intern

Dimension Data

Feb 2010 - Feb 2011

KEY ACHIEVEMENTS

- Successfully led the migration of traditional Layer 2/3 networks into Cisco ACI-based architectures.
- Designed and implemented BGP L3Out configurations for high availability and scalability.
- Delivered seamless data centre migrations and fabric deployments for enterprise and service provider environments.
- Streamlined operations and troubleshooting processes for ACI fabrics, ensuring minimal downtime.
