PROFESSIONAL SUMMARY

Experienced IT professional with a strong background in Salesforce Marketing Cloud, AWS cloud solutions, and IT infrastructure management. Proven expertise in designing and implementing scalable cloud architectures, developing marketing automation workflows, and providing technical support. Adept at collaborating with cross-functional teams and delivering solutions that align with business objectives. Committed to continuous learning and staying updated with the latest industry trends and technologies.

PROFESSIONAL EXPERIENCE

Salesforce Marketing Cloud Engineer

Standard Bank

August 2024 - Present

- Developed and executed email marketing strategies using Salesforce Marketing Cloud to meet business objectives.
- Designed and managed email campaigns, including content creation, scheduling, and segmentation.
- Monitored campaign performance and provided detailed reports to optimise email marketing efforts.
- Implemented marketing automation workflows using Salesforce Journey Builder to nurture leads and enhance customer engagement.
- Collaborated with cross-functional teams to integrate Salesforce Marketing Cloud with other platforms and systems.
- Produced comprehensive documentation for processes and implemented solutions.
- Provided user training and drove platform adoption across teams.
- Stayed updated with industry trends and best practices in Salesforce Marketing.

Cloud Software Engineer

Umdoko Internet

May 2023 - February 2024

- Designed scalable and secure cloud infrastructure solutions aligned with business requirements.
- Automated cloud resource provisioning using Infrastructure as Code (CloudFormation).
- Deployed and managed AWS cloud resources, ensuring optimal performance and reliability.
- Monitored cloud services and implemented performance optimisation strategies.
- Ensured compliance with security best practices and regulatory requirements.
- Analysed resource usage and implemented cost-saving measures for cloud operations.
- Collaborated with development and operations teams to support application deployment and troubleshoot issues.
- Kept up-to-date with the latest cloud technologies and industry trends.

Cloud and Security Intern

Think Tank

August 2022 - January 2023

- Gained hands-on experience in cloud security best practices and the shared responsibility model.
- Configured security settings for cloud services and managed user access control.
- Created and managed user accounts, roles, and groups to ensure secure access to cloud resources.

System Administrator and Support Technician

Department of Home Affairs

September 2021 - July 2022

- Provided technical support to ensure the smooth operation of servers and networks.
- Installed and maintained network equipment, including routers, switches, and firewalls.
- Managed Windows Server and operating systems (Windows 7 and 10).
- Supported ERP systems and ensured regular updates for all computer systems.
- Monitored and resolved network issues, ensuring minimal disruption to business operations.
- Managed user accounts and ensured the security and privacy of IT systems.
- Configured and supported networking protocols such as DNS, HTTP, TCP, and UDP.

KEY ACHIEVEMENTS

-
- Successfully implemented marketing automation workflows using Salesforce Journey Builder, increasing lead conversion rates by 25%.
 - Designed and deployed a scalable AWS cloud infrastructure for Umdoko Internet, reducing operational costs by 15%.
 - Streamlined cloud resource provisioning through Infrastructure as Code, improving deployment efficiency by 30%.
 - Provided critical technical support at the Department of Home Affairs, ensuring uninterrupted IT operations across multiple sites.
