

Jason Marc Dworkin

Senior Azure Integration Expert

CORE SKILLS

- Azure API Management
- Azure Service Bus
- Logic Apps
- Cloud architecture
- Hybrid-cloud solutions
- Multi-cloud solutions
- Cloud migration
- Scalability design
- Availability design
- Security best practices
- Azure Key Vault
- OAuth2
- Azure AD
- API governance
- Serverless technologies
- Middleware
- IAM and RBAC
- Disaster Recovery
- High-Availability
- LeanIX

CERTIFICATIONS

- Microsoft Certified Azure Solutions Architect Expert
- MCSA - Microsoft Certified Systems Administrator
- ITIL Foundation Certificate
- CompTIA A+ Computer Support Professional

EDUCATION

- Microsoft Certified Azure Solutions Architect Expert (Renewed Annually)
- MDP - Management Development Program, University of Stellenbosch Business School
- ITIL Foundation Certificate, Quintica
- MCSA - Microsoft Certified Systems Administrator, Self-Study/Microsoft

PROFESSIONAL SUMMARY

Highly experienced Azure Solutions Architect with over 26 years in the ICT industry, specialising in cloud architecture, hybrid-cloud solutions, API integration, and security best practices. Proven track record in designing and implementing scalable, secure, and high-availability infrastructures across enterprise and Telco/ISP environments. Adept at aligning technology solutions with business objectives, driving innovation, and leading cross-functional teams to deliver mission-critical projects.

PROFESSIONAL EXPERIENCE

Senior Azure Integration Expert

Dotcom (consulting house) - Life Healthcare (client)

May 2025 - Present

- Designed and implemented a secure Azure API Management (APIM) architecture adhering to Microsoft Cloud Adoption and Well-Architected Framework principles.
- Established API governance policies for access control, authentication standards (OAuth2, Azure AD), versioning, and lifecycle management.
- Integrated APIM with Azure Key Vault for secure management of backend credentials, secrets, and certificates.
- Led the deployment of Azure Service Bus and Logic Apps for seamless integration and automation.
- Delivered comprehensive governance frameworks and technical documentation for operational handover.

Senior Solutions Architect

AB-InBev (client) - iSanqa (consulting house)

October 2021 - May 2025

- Architected solutions for five business units, aligning technology with business goals and driving innovation.
- Designed high-level architectures and presented solutions at Architecture Review Board sessions for approval.
- Created reference architectures on Azure and AWS, including APIM, databases, AKS, serverless technologies, and disaster recovery.
- Planned and executed cloud migration strategies for legacy on-premise services.
- Developed technology roadmaps and maintained updated business unit landscapes using LeanIX.

Solutions Architect

NetLIMS

May 2015 - October 2021

- Designed and deployed enterprise-grade Azure infrastructure solutions ensuring high availability, security, and scalability.
- Led cloud migration initiatives, assessing on-premises environments and architecting tailored strategies.
- Implemented security best practices, including IAM, data protection, and threat

detection.

- Automated deployment processes using Infrastructure as Code (IaC) with Azure Resource Manager (ARM).
- Provided technical leadership and mentoring to development teams and junior architects.

Technology Specialist and Advisory Consultant

Freelance

May 2013 - May 2015

- Designed and implemented LAN and WAN solutions for SmartMatta and Continental Linen.
- Engaged with ISPs, Telcos, and vendors for product and service recommendations, contract negotiations, and project management.
- Provided strategic consultancy for technology solutions and infrastructure improvements.

Product Portfolio Manager - Connectivity, Internet Access Solutions Architect

Telkom Business

May 2012 - May 2013

- Developed new products and enhanced existing offerings, focusing on customer-specific solutions.
- Provided technical designs and solutions for tenders, RFPs, and RFIs.
- Defined strategic product portfolio direction and objectives to align with business strategy.
- Conducted market and competitor analysis to inform product portfolio strategies.

Senior Product Manager (Dedicated Internet Services, Broadband, VSAT, VPN, APNs)

Altech Autopage

May 2011 - May 2012

- Managed and developed connectivity solutions including broadband, VSAT, MPLS, and corporate APNs.
- Led go-to-market strategies for new product development projects.
- Negotiated vendor costs, margins, and SLAs to optimise profitability.
- Provided pre-sales and post-sales support, aligning solutions with customer requirements.

Solutions Consultant - Intra-company & External Customer Pre-sales

Vox Telecoms

May 2010 - May 2011

- Advised customers on infrastructure solutions based on requirements and budgets.
- Provided technical and commercial input for tenders, RFIs, and RFPs.
- Analysed customer data to identify revenue opportunities and mitigate risks.

Manager of Managed Hosting Services (Ops Division)

Dimension Data (Internet Solutions)

May 2008 - May 2010

- Managed a team of senior engineers to deploy and support managed cloud services.
- Launched Dimension Data's first IaaS virtual server offering in partnership with hardware vendors and VMware.

- Implemented ITIL best practices for capacity, availability, and change management.

General Manager - Connectivity Business Unit

Dimension Data (Internet Solutions)

May 2006 - May 2008

- Managed a business unit with annual revenue of R840m.
- Developed and delivered product roadmaps and strategies.
- Defined market positioning and financial targets for new products.
- Led financial analysis and improvement of costing models.

KEY ACHIEVEMENTS

- Designed and launched Dimension Data's first IaaS virtual server offering.
- Architected and implemented Azure API Management for enterprise-grade API governance and security.
- Developed technology roadmaps and reference architectures for AB-InBev's business units.
- Led successful cloud migration initiatives for multiple organisations.
- Provided strategic consultancy and technical leadership across diverse industries.
