PROFESSIONAL SUMMARY

Customer-focused IT Support Specialist with over 6 years of experience delivering high-quality technical support across SaaS, cloud, and networking environments. Proven expertise in handling high ticket volumes while consistently meeting SLA targets and maintaining strong customer satisfaction. Skilled in troubleshooting Microsoft 365, Azure AD, Active Directory, VPNs, and telehealth workflows. Adept at leveraging collaboration tools like Slack and AI productivity solutions to streamline processes and enhance resolution times.

PROFESSIONAL EXPERIENCE

Senior Support Specialist

AVEVA

Jul 2025 - Present

- Resolved complex hardware, software, and network issues while mentoring junior staff and managing IT infrastructure.
- Provided advanced support across Microsoft, Linux, and cloud-based systems, translating technical jargon into clear guidance.
- Diagnosed and troubleshooted SaaS, API, and infrastructure-related issues using structured problem-solving.
- Automated repetitive support tasks with Python and AI co-pilot tools to enhance resolution times.
- Utilised Nagios and Zabbix to monitor service health and maintain SLA compliance.

Technical Support Representative

LexisNexis

Dec 2021 - May 2025

- Resolved 40+ daily support tickets across email, chat, and remote tools, consistently meeting SLA targets.
- Troubleshooted networking, connectivity, SaaS, and API issues, documenting resolutions for future reference.
- Supported Windows and macOS endpoints through installation, configuration, and performance troubleshooting.
- Created and maintained knowledge base articles to improve first-call resolution rates.
- Collaborated via Slack and CRM workflows to enhance productivity and customer satisfaction.

Support Engineer

Veritech ICT Solutions

Jul 2020 - Aug 2021

- Troubleshooted Active Directory, VPN, and workstation performance issues to ensure secure and reliable access.
- Supported Microsoft 365 administration, resolving mailbox issues and performing licensing checks.
- Delivered IT and desktop support across multi-client environments, adhering to MSP processes and SLAs.

- Coordinated remote workspace setups via Slack to ensure strong customer fit and satisfaction.

IT Support Specialist

Leggero Technologies

Feb 2015 - Jun 2019

- Delivered on-site and remote desktop support, resolving hardware, software, and connectivity issues.
- Oversaw workstation repairs, installations, and upgrades, standardising guided setup checklists.
- Provided technical support across departments, leveraging CRM notes to align fixes with product management.
- Assisted users with network connectivity and system performance troubleshooting via remote tools.
- Managed ticketing system to prioritise and resolve IT support requests efficiently.

IT Technician

MBD Inc.

Apr 2013 - Sep 2013

- Provided Tier 1 support for hardware, software, and network incidents, logging and resolving tickets within SLAs.
- Guided employees through account creation and initial profile settings to ensure smooth onboarding.
- Installed and configured hardware and software for company-wide systems.
- Maintained network infrastructure to ensure reliable connectivity across departments.
- Executed troubleshooting and escalated issues while ensuring clear communication with end users.

KEY ACHIEVEMENTS

- Generated \$72,380 in revenue through effective client issue resolution and subscription retention at LexisNexis.
- Automated repetitive support tasks using Python and AI tools, significantly improving resolution times.
- Created and maintained knowledge base articles to enhance first-call resolution rates and customer satisfaction.
- Mentored junior staff at AVEVA, fostering technical growth and improving team performance.
- Awarded 'Best Support Agent and Revenue Generator of the Year' at LexisNexis in 2023.
