

Kgomotso Dungeni

Cloud & DevOps Engineer

CORE SKILLS

- AWS (EC2, S3, Lambda, CloudFormation, RDS, VPC)
- Azure
- Jenkins
- Git
- Docker
- Kubernetes
- Ansible
- Python
- Node.js
- Linux
- CodePipeline
- GitLab
- GitHub
- AWS CodeCommit
- Terraform
- CloudFormation
- ECS
- ECR
- Prometheus
- Grafana
- CloudWatch
- CloudTrail
- DNS
- TCP/IP

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Certified Solutions Architect Associate SAA-C03
- AWS Certified Developer Associate DVA-C02

EDUCATION

- BComHons in Information Systems | University of Johannesburg | 2022
- Advanced Diploma in Business Information Technology | University of Johannesburg | 2021
- National Diploma in Business

PROFESSIONAL SUMMARY

Cloud and DevOps Engineer with over 3 years of experience in designing and implementing scalable solutions across AWS and Azure platforms. Holds multiple AWS certifications, including Solutions Architect Associate and Developer Associate, with expertise in CI/CD, containerisation, and infrastructure as code. Proven ability to optimise performance and automate processes to align with business objectives.

PROFESSIONAL EXPERIENCE

Cloud & DevOps Engineer

BetXchange

October 2024 - Present

- Monitored containerised applications in staging and production environments, using Grafana alerts to investigate and resolve performance issues within set thresholds.
- Managed nationwide store tills and deployed updates via Ansible playbooks upon repository image updates.

Junior Cloud & DevOps Engineer

Disraptor

October 2022 - October 2024

- Implemented infrastructure as code using Terraform, reducing deployment errors and improving reproducibility across environments.
- Designed and deployed CI/CD pipelines to automate software application delivery.

Lead Developer

Owareco LLC

2020

- Developed and maintained mobile applications using Java and Node.js.
- Created and maintained unit tests to ensure code quality.

KEY ACHIEVEMENTS

- Investigated Docker container issues using Linux commands and configured alerts on Grafana with PromQL expressions.
- Automated SSL certificate updates and log rotation using Bash scripts.
- Performed data migration using AWS Migration Service and third-party tools.
- Orchestrated a shift to infrastructure as code with Terraform, improving deployment reliability.
- Designed and implemented CI/CD pipelines, streamlining software delivery processes.
