

Liliyosa
Mbakureya

Junior Front-End Developer

CORE SKILLS

- Python
- JavaScript
- HTML
- CSS
- React
- Next.js
- MySQL
- PostgreSQL
- MongoDB
- Git
- Docker
- Jenkins
- AWS
- Windows
- Linux
- macOS
- Version Control

CERTIFICATIONS

- Front-end Development - Africa Agrility Foundation
- Enterprise Networking, Security and Automation - CISCO

EDUCATION

- Diploma in Cybersecurity - AltSchool Africa (June 2025 - June 2026)
- Certificate in Software Engineering - Holberton College/ALX Africa (May 2022 - Aug 2023)

PROFESSIONAL SUMMARY

A highly skilled and adaptable IT professional with expertise in front-end development, web development, and DevOps. Proficient in modern programming languages, frameworks, and tools, with a proven track record of delivering user-friendly and responsive web applications. Experienced in collaborating with cross-functional teams, integrating APIs, and implementing CI/CD pipelines. Passionate about leveraging technology to solve complex problems and enhance user experiences.

PROFESSIONAL EXPERIENCE

Junior Front-End Developer

- ClickatrixFeb 2026 - Present
- Developed and maintained user interfaces for web applications using React.js.
 - Collaborated with the back-end team to integrate RESTful APIs for seamless data flow.
 - Implemented responsive design principles to ensure cross-browser and mobile compatibility.
 - Participated in code reviews and utilised Git for version control within an Agile environment.

Web Developer and Digital Marketing

- Makanaka Fire PreventionDec 2024 - Jan 2026
- Developed and maintained software solutions for fire safety monitoring and prevention systems.
 - Collaborated with cross-functional teams to gather requirements and deliver user-friendly interfaces.
 - Created and executed digital marketing campaigns to promote fire safety solutions, increasing brand awareness.
 - Produced engaging content for social media platforms, blogs, and newsletters focused on fire prevention.
 - Attended workshops and webinars to stay updated on trends in software development and digital marketing.

Software Engineering Intern

- Headerstarter AJul 2024 - Aug 2024
- Built and deployed AI applications and APIs using Next.js, OpenAI, React, and Stripe, targeting 1,000 registered users.
 - Led the end-to-end development process from design to deployment, managing a team of engineering fellows.
 - Received mentorship from engineers at Amazon, Bloomberg, and Capital One on Agile methodologies, CI/CD, Git, and microservice architectures.

KEY ACHIEVEMENTS

- Successfully developed and launched a Construction Marketplace Website using React.js, optimising performance and ensuring responsive design.
- Designed and deployed the official Mekanaka Fire Prevention website using WordPress, enhancing the company's online presence.
- Implemented robust security measures and performed regular maintenance on WordPress installations.
- Led a team of engineering fellows during an internship to deliver AI applications, gaining valuable leadership experience.
- Integrated front-end features with RESTful APIs to ensure seamless user interactions and real-time data display.
