

Mathys Henzen

Draughtsman

CORE SKILLS

- ArchiCAD
- SketchUp
- TwinMotion
- Revit
- AutoCAD
- Microsoft Office

CERTIFICATIONS

- Certificate in Energy Efficiency and Sustainability

EDUCATION

- Bachelor in Environmental Design, Inscape Education Group, 2019 - 2021
- Certificate in Energy Efficiency and Sustainability, University of Cape Town, 2023

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Environmental Designer with expertise in architectural visualisation, draughting, and industrial design. Proficient in leading design software including ArchiCAD, SketchUp, TwinMotion, Revit, and AutoCAD. Adept at delivering innovative and sustainable design solutions, with a strong focus on energy efficiency and sustainability.

PROFESSIONAL EXPERIENCE

Draughtsman

BestCiv Engineering

Jun 2024 - Sept 2024

- Drafted various architectural elements for residential and commercial buildings.
- Created 3D models and rendered visualisations to support client presentations.
- Collaborated with architects and engineers to ensure project accuracy and efficiency.

Draughtsman

Intersect Architects

Oct 2024 - Sept 2025

- Produced detailed architectural drawings for a wide range of projects.
- Developed 3D models and rendered visualisations to enhance project presentations.
- Worked closely with clients to ensure designs met their expectations and requirements.

Draughtsman

CM Developments

June 2021 - Dec 2024 (Part-time)

- Drafted structural elements for construction purposes based on engineer designs.
- Ensured accuracy and compliance with industry standards in all draughting work.
- Provided support for multiple projects on a contract basis.

Draughtsman

The FX Group

April 2022 - Oct 2022

- Converted hardcopy plans into digital formats using advanced draughting tools.
- Supported various projects on a contract basis, ensuring timely delivery of designs.
- Gained hands-on experience in architectural draughting during an internship.

Industrial Designer

Henzen

Contract Basis

- Designed, measured, and drafted industrial pipelines for a power plant's steam turbine.
- Collaborated with engineers to ensure precision in industrial design projects.
- Delivered high-quality designs within tight deadlines.

KEY ACHIEVEMENTS

- Successfully drafted and visualised complex architectural and industrial designs for

high-profile projects.

- Earned a Certificate in Energy Efficiency and Sustainability, enhancing expertise in sustainable design practices.
- Delivered accurate and detailed 3D models and visualisations that improved client engagement and project approvals.
