- Networking

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate

EDUCATION

- BSc Information Technology (Incomplete), NWU Potchefstroom, 01/2017 - 10/2018

PROFESSIONAL SUMMARY

Highly motivated and certified AWS Solutions Architect - Associate with a proven track record in delivering effective technical solutions and enhancing operational efficiency in fast-paced IT environments. Adept at orchestrating disaster recovery planning, implementing knowledge management practices, and providing technical expertise across the entire IT stack. Known for excellent communication and presentation skills, a demonstrated drive for continual learning, and a commitment to delivering reliable results and technical leadership. Seeking to leverage foundational knowledge in cloud computing, Linux administration, and automation scripting to excel in roles such as Cloud Engineer or AWS Solutions Architect.

PROFESSIONAL EXPERIENCE

IT Support Consultant

iceConnect

09/2022 - Current

- Monitored and managed various cloud platforms, ensuring high availability and performance while managing user permissions for applications and services.
- Provided technical expertise in Active Directory, Exchange Management, Office 365 administration, and Windows Servers, ensuring a secure IT environment.
- Orchestrated disaster recovery planning and testing, safeguarding critical IT infrastructure and implementing risk mitigation strategies.
- Implemented knowledge management practices, significantly reducing resolution times for incidents through effective knowledge sharing.
- Created project plans, communicated deadlines, and ensured timely completion of deliverables, demonstrating strong organisational skills.
- Addressed customer technical queries with effective solutions via ticketing system, phone, and email, showcasing excellent communication skills.

Helpdesk Engineer Tier 2

Dotcloud

02/2021 - 09/2022

- Resolved complex customer technical queries, providing advanced technical support and guiding users on optimal platform usage.
- Arranged hardware and software upgrades to maintain system stability and technological capabilities.
- Procured software, hardware, and infrastructure to meet client requirements, ensuring seamless operations.

Helpdesk Engineer Tier 1

Dotcloud

02/2020 - 02/2021

- Resolved customer technical queries via ticketing system, phone, and email, providing quality feedback and solutions.
- Guided users on optimal use of platforms and systems, reducing the likelihood of recurring issues.

KEY ACHIEVEMENTS

- Achieved AWS Certified Solutions Architect - Associate certification, demonstrating expertise in cloud computing.
- Implemented knowledge management practices that significantly reduced incident resolution times.
- Successfully orchestrated disaster recovery planning and testing, ensuring robust IT infrastructure resilience.
