

Petunia Motlhakane

Level 2 Service Desk Technician

CORE SKILLS

- Power BI
- IMS Database programming
- COBOL
- Azure Data Engineering
- Azure AI Engineering
- Azure Database Administration
- Networking
- Troubleshooting
- Root Cause Analysis
- Technical Support
- Data Pipeline Development
- Statistical and Machine Learning Models
- Active Directory
- VoIP Systems
- Stakeholder Communication

CERTIFICATIONS

- IBM Transcript
- IMS Database programming
- Beginners Guide to Coding Course
- Cobol programming with VS Code
- CCNA Routing and Switching: Routing and Switching Essentials
- CCNA IT Essentials
- Cisco Small and Medium Business Engineer
- Microsoft Certified: Azure Data Engineer Associate
- Microsoft Certified: Azure AI Engineer Associate
- Microsoft Certified: Azure Data Fundamentals
- Microsoft Certified: Azure Database Administrator Associate

EDUCATION

- Information Technology Diploma, Vaal University of

PROFESSIONAL SUMMARY

Results-driven IT professional with extensive experience across data engineering, database administration, network engineering, and technical support. Demonstrates expertise in Power BI, IMS Database programming, COBOL, and Azure technologies. Skilled in troubleshooting, root cause analysis, and optimising IT protocols to ensure efficient service delivery. Adept at stakeholder communication, staff training, and continuous improvement through adoption of industry advancements.

PROFESSIONAL EXPERIENCE

Level 2 Service Desk Technician

Advanced Call Center Technologies

March 2025 - present

- Resolved complex technical incidents and service requests, acting as main escalation point for Level 1 technicians.
- Provided Tier 2 support for hardware, software, VoIP systems, Windows OS, Microsoft 365, VPN access, and proprietary applications.
- Managed user accounts and group policies via Active Directory, supporting onboarding and offboarding processes.
- Maintained telephony infrastructure and ensured communication reliability in a high-volume call centre environment.
- Contributed to internal documentation and knowledge base, improving support efficiency and reducing repeat issues.
- Demonstrated strong customer service skills through effective communication and user-friendly solutions.

IT Project Coordinator

JustNet

Sep 2024 - Feb 2025

- Worked with large datasets to uncover actionable insights and developed statistical and machine learning models.
- Built and optimised data pipelines, maintaining data quality and improving data storage and access.
- Collaborated with cross-functional teams to understand data requirements and communicate findings to stakeholders.
- Stayed current with data science advances and explored new tools to enhance processes.
- Provided Tier 2 technical support, resolving escalated issues and managing support cases via FootPrints ticketing system.

Data Engineer Developer

Qneticx

Nov 2023 - Aug 2024

- Led hardware and software installations, network infrastructure setup, and development of IT protocols.
- Established cybersecurity standards and managed IT service delivery for stakeholders.

- Monitored system and network performance, coordinated maintenance, repairs, and data backup.
- Provided technical support and delivered staff training to enhance IT proficiency.

Digital Agent/Support Technician

Catch Consultants (2degrees New Zealand)

Apr 2023 - Oct 2023

- Diagnosed and resolved hardware and software issues, delivering exceptional customer service.
- Analysed customer inquiries, determined root causes, and provided alternative solutions to retain business.
- Documented transactions accurately, followed procedures, and escalated priority issues as required.
- Stayed current with product updates and ensured effective communication and timely follow-ups.

Helpdesk Support Technician

GAAP

Apr 2022 - Mar 2023

- Logged and tracked support tickets, ensuring timely resolution and clear communication of updates.
- Troubleshoot fibre connection issues and escalated complex cases to higher-level teams.
- Maintained records, generated reports, and collaborated on proactive solutions to recurring problems.
- Provided prompt and courteous support, consistently following up on resolutions.

Business Analyst (Vacation Job)

BASF

Mar 2022 - Apr 2022

- Conducted root cause analysis, demand planning, and data analysis using Power BI.
- Delivered actionable business insights to optimise operational efficiency.

KEY ACHIEVEMENTS

- Successfully led network infrastructure setup and IT protocol development at Qnetix, enhancing cybersecurity and service standards.
- Built and optimised data pipelines at JustNet, improving data quality and accessibility for business stakeholders.
- Resolved high-volume technical incidents at Advanced Call Center Technologies, maintaining exceptional customer satisfaction scores.
- Delivered actionable business insights at BASF through effective use of Power BI and root cause analysis.
- Achieved multiple Microsoft Azure certifications, demonstrating advanced proficiency in cloud data engineering and AI.
