

Riaan Snyders

Lead Consultant and Managing Member

CORE SKILLS

- Software Architecture
- TOGAF
- SOMF
- UML
- Agile (SCRUM, Kanban, Lean)
- Microsoft Azure
- AWS
- Docker
- Kubernetes
- C# .NET
- Java
- PHP
- Golang
- Python (Flask)
- JavaScript
- TypeScript
- React.js
- Angular
- Vue.js
- SQL Server
- MySQL
- PostgreSQL
- Elasticsearch
- Redis
- Microsoft BizTalk Server
- API Management
- DevOps
- Full Stack Development

CERTIFICATIONS

- Microsoft BizTalk Server Diploma

EDUCATION

- Stanford University - Human-Computer Interaction (Online Course), 2014
- Microsoft - BizTalk Server Diploma, 2001
- Hatfield Business College - Internet Development Diploma, 1999
- University of Pretoria - B.A. Degree, 1996-1999

PROFESSIONAL SUMMARY

Seasoned software architect and consultant with over two decades of experience designing and delivering robust, scalable, and integrated systems across web, mobile, and enterprise platforms. Demonstrates deep expertise in cloud-native architectures, modern development frameworks, and agile methodologies. Proven leadership in project delivery, technical strategy, and client engagement, with a strong track record of successful solution architecture and hands-on development for major clients in the UK and South Africa.

PROFESSIONAL EXPERIENCE

Lead Consultant and Managing Member

Elevato Labs / Independent Consultant

2006 - Present

- Architected and delivered cloud-native and enterprise solutions for diverse clients, leveraging Azure, AWS, and modern development frameworks.
- Led multi-disciplinary teams in the design and implementation of payment, hotel, recruitment, and e-commerce platforms.
- Directed integration projects using .NET, Python (Flask), Go, and React.js, ensuring high scalability and performance.
- Developed and maintained full-stack solutions for clients such as Tigerbrands, Metrofile, AECOM, and Tiger Trolley.
- Designed and implemented API management strategies using RAML and MuleSoft.
- Oversaw migration and modernisation projects, including BizTalk upgrades and SharePoint implementations.
- Championed agile practices and DevOps culture, improving delivery velocity and code quality.
- Consulted on user experience and platform integration for major public and private sector clients.

Software Architect and Developer

nVisionIT

2003 - 2006

- Led architecture and development of integration solutions for major clients including Multichoice, South African Revenue Services, and Deloitte.
- Designed and implemented enterprise portals and workflow solutions using SharePoint, BizTalk Server, and .NET.
- Managed teams delivering high-profile projects, ensuring alignment with business objectives and technical best practices.
- Architected and delivered host integration projects, streamlining business processes and enabling legacy system interoperability.
- Developed custom components, security frameworks, and reporting solutions using C# .NET, SQL Server, and MDX.

Senior Developer

IDCS

2001 - 2003

- Developed in-house intranet applications using ASP, XML, SQL Server, and later migrated solutions to Microsoft .NET.
- Designed and implemented mobile data capture applications for Palm OS.
- Led database design, technical specifications, and UI design for business-critical systems.

Developer

Aqua Online

2000 - 2001

- Delivered internet-based solutions for high-profile clients using ASP, Java, JavaScript, and SQL Server.
- Responsible for database and UI design, ensuring robust and user-friendly web applications.

Web Master and Web Developer

AFRICAM

1999 - 2000

- Developed and maintained multimedia-rich websites using ASP, Java, PHP, and streaming technologies.
- Implemented cross-platform solutions on both Windows and Linux environments.

KEY ACHIEVEMENTS

- Board Member - BizTalk Server User Group (2014)
- Board Member - SCRUM User Group (2010-2013)
- Published in IT Web Magazine: 'Information Portals' (2008)
- Led the architecture and delivery of a national treasury programme (iDevelop) for the South African government.
- Successfully migrated and modernised multiple enterprise environments, including BizTalk and SharePoint platforms.
- Designed and implemented a smart metering and load management system for a luxury golf lodge in Mauritius.
- Architected and delivered full-stack solutions for high-profile clients across finance, healthcare, and telecommunications sectors.
