

Tanyaradzwa Tanatswa Mushonga

Lead Frontend Engineer (Contract)

CORE SKILLS

- React.js
- Next.js
- React Native
- Expo
- Angular
- TypeScript
- JavaScript
- Tailwind CSS
- Responsive Design
- Cross-Browser Compatibility
- Node.js
- Express
- Django
- Django REST Framework
- REST APIs
- GraphQL
- WebSockets
- Authentication
- JWT
- OAuth
- PostgreSQL
- Prisma ORM
- Firebase Firestore
- MySQL
- SQL
- AWS
- Docker
- Kubernetes
- Terraform
- Vercel
- CI/CD
- Oracle Cloud Infrastructure
- Git
- Agile/Scrum
- Figma
- Postman
- UI/UX Optimisation
- Shell Scripting

CERTIFICATIONS

- Oracle Cloud Infrastructure
2025 Certified Multicloud

PROFESSIONAL SUMMARY

Full-stack and mobile software engineer with over two years of hands-on experience delivering production-grade applications. Demonstrates a proven track record in building responsive React/Next.js frontends, React Native mobile apps, and robust Node.js/Django backends. Oracle Cloud certified in Multicloud Architecture and DevOps. Adept at shipping real-world products for enterprise and SME clients, with a strong focus on scalable architecture, DevOps, and cloud-native solutions. Open to software engineering, full-stack, mobile, and cloud-adjacent contract roles.

PROFESSIONAL EXPERIENCE

Lead Frontend Engineer (Contract)

LaniTech 360 Dec 2025 - Present

- Architected and owned the entire frontend of a scalable CRM business suite using Next.js, React, and TypeScript, serving enterprise clients with complex workflow requirements.
- Implemented real-time features such as live dashboards, notification systems, and activity feeds through efficient API integration and WebSocket-based updates.
- Collaborated with backend engineers and product managers to translate business requirements into high-performance, responsive UI components.
- Optimised for scalability and high-traffic enterprise usage, establishing reusable component libraries and frontend architecture patterns across the team.

Full Stack Developer (Freelance)

The Transformation Legacy (TTL Business Diagnostics) Jan 2025 - Dec 2025

- Led end-to-end development of a web-based Business Performance Assessment Platform, digitising a manual Excel process into a secure, role-based system.
- Developed with Next.js, Node.js/Express, PostgreSQL, and Tailwind CSS; deployed on Vercel for seamless scalability.
- Integrated automated AI-generated report generation via the ChatGPT API, significantly reducing manual reporting time for consultants.
- Delivered a zero-error production deployment; client confirmed the platform performed exactly as required in live operations.

Junior Software Developer (Intern)

Mviyo Technologies Jun 2024 - Jun 2025

- Contributed to Safi and SafiZen, on-demand cleaning service platforms, building React Native mobile UIs, Django REST API integrations, and Firebase authentication.
- Built secure payment integration and a responsive ticketing interface for ZimTickets, a mobile-first event platform serving multiple event organisers.
- Participated in Agile ceremonies, managed version control, and assisted in CI/CD deployments via GitHub.
- Gained hands-on experience across the full stack: frontend (React, React Native),

backend (Django, Node.js), databases (PostgreSQL), and DevOps (AWS S3, Docker).

KEY ACHIEVEMENTS

- 1st Place: ZITF Innovators Forum Hackathon 2024 - Built a virtual queueing system reducing service centre wait times by 50%.
- Certificate of Recognition: POTRAZ Innovation Expo & Conference 2025 - Recognised for a FinTech innovation enabling secure, portable digital identity infrastructure.
- Developed and open-sourced SkyMarshal API, integrating real-time computer vision and event streaming for aerial traffic enforcement; dissertation submitted to the 12th ICAT Conference.
- Built a technical blog platform (120+ articles, 1,000+ monthly views) with a 98/100 Lighthouse score and 1.2s average page load.
- Designed production-ready AWS Terraform backend CI/CD pipelines, standardising containerised application delivery with zero-downtime deployments.
