- Diploma in Retail Management, UNISA, South Africa - 2017
- BSc Statistics (Major) and Computer Science, University of Zimbabwe, Zimbabwe - 2004

PROFESSIONAL SUMMARY

Experienced IT professional specialising in delivery management, Agile frameworks, and data-driven solutions. Proficient in ETL development, data modelling, and integration, with a proven track record of driving successful project outcomes. Adept at collaborating with cross-functional teams to achieve strategic objectives and streamline workflows.

PROFESSIONAL EXPERIENCE

Delivery Manager

FNZ

10/2023 - Present

- Collaborate with a high-performing team of migration experts to drive end-to-end migration to the FNZ platforms.
- Serve as Scrum Master, leading Agile ceremonies to ensure structure and delivery.
- Partner with clients to document processes and identify gaps for streamlined workflows.
- Oversee the design and maintenance of SSIS packages for successful database migrations.

Migrations Analyst Developer

FNZ

08/2019 - 09/2023

- Migrated client data to the FNZ platforms using a standardised framework and SSIS techniques.
- Designed and implemented data models, schemas, and validations to ensure transfer accuracy.
- Collaborated with internal teams and client SMEs to deliver complex data mapping solutions.
- Developed and maintained SSIS packages for FNZ database migrations, emphasising scalability.

Data Analyst

Real People Assurance (Evolution Group)

09/2016 - 08/2019

- Collaborated with business and IT teams to analyse requirements for BI and reporting projects.
- Designed and deployed integrated BI solutions using industry-standard tools, ensuring alignment with best practices.
- Acted as the primary lead for insurance reporting support, managing changes and resolving data issues.
- Developed and optimised SQL queries and stored procedures for enhanced performance and accuracy.

IT Manager

MICA Hardware

09/2009 - 08/2016

- Developed and analysed reports using SQL, Microsoft Access, Crystal Reports, and Excel to enhance inventory and sales efficiency.
- Trained and supported report users, ensuring data integrity and effective use of reporting tools.
- Oversaw IT infrastructure across three retail stores, administering retail systems like Ultisales and Turnkey.
- Implemented backup solutions and disaster recovery protocols to ensure business continuity.

IT Consultant

Strictly Technology Pty Ltd

03/2009 - 07/2016

- Provided 1st-level support to retail clients, ensuring quick resolution of technical issues.
- Managed Ultisales-active retail software to enhance store operations and efficiency.
- Delivered network support and performed installations to maintain reliable connectivity.
- Administered SQL databases, ensuring data integrity and performance for business continuity.

Pricing Monitoring Officer

CFI Holdings

05/2008 - 02/2009

- Collected and validated daily statistical datasets on CPI, internal inflation rates, and government-regulated prices.
- Conducted statistical analyses on sales trends and exchange rate fluctuations to support strategic decision-making.
- Collaborated with stakeholders to assess pricing policies and recommend group-wide price adjustments based on data.

IT and Operations Officer

Glynn's Bolts Pvt Ltd

02/2005 - 04/2008

- Oversaw the management of the ERP Syspro Warehouse Package to enhance operational efficiency.
- Provided technical support for SCO UNIX servers and maintained Windows-based client machines.
- Implemented software solutions to improve system performance and streamline operations.
- Supervised hardware procurement, receipting, and sales, ensuring inventory accuracy.

KEY ACHIEVEMENTS

-
- Successfully led end-to-end migration projects to FNZ platforms, ensuring data

accuracy and scalability.

- Designed and implemented robust data models and schemas to streamline complex data mapping processes.
- Optimised SQL queries and stored procedures, significantly enhancing system performance and reporting accuracy.
- Implemented disaster recovery protocols, ensuring business continuity across multiple retail locations.
- Developed and deployed integrated BI solutions, aligning with industry best practices and improving decision-making capabilities.
