

CORE SKILLS

- Router
- Switch
- Firewall
- Wireless LAN Controller (WLC)
- High-Level Design (HLD)
- Low-Level Design (LLD)
- Standard Operating Procedures (SOP)
- Network Audit
- Network Assessment
- Network Security Policies
- MPLS
- VPLS
- VxLAN
- TCP-IP
- BGP
- IS-IS
- OSPF
- EIGRP
- Zero-Trust
- Cisco ISE
- Network Access Control (NAC)
- Information Security Governance
- Cisco
- Juniper
- Palo Alto
- Fortinet
- Project Management
- Team Leadership
- Communication

CERTIFICATIONS

- Certified Information Security Manager (ISACA), 2024
- CCIE Security (Cisco), 2018
- CCIE Enterprise Infrastructure (Cisco), 2017
- MBA (Henley), 2020

EDUCATION

- MBA, Henley Business School, 2020

PROFESSIONAL SUMMARY

Accomplished Senior Network Architect with nearly 20 years' experience delivering large-scale IT and business management projects across diverse industries. Expert in designing, implementing, and securing enterprise network infrastructures, with proven leadership in network security management and information security governance. Adept at translating business requirements into robust technical solutions, driving innovation, and ensuring compliance with industry standards. Holds advanced certifications including CCIE Security, CCIE Enterprise Infrastructure, and CISM, complemented by an MBA.

PROFESSIONAL EXPERIENCE

Senior Principal Engineer

Business Connexion

2019 - Current

- Led the architecture and management of complex technical solutions for enterprise clients.
- Developed high-level and low-level network designs, ensuring alignment with business objectives and compliance standards.
- Delegated solutions projects to engineering teams and provided 3rd line implementation support.
- Interfaced with clients to identify opportunities for technological improvements based on emerging trends.
- Approved network architectures and managed technical resources for critical projects.

Senior Provision Engineer (Team Lead)

Vodacom Business

2017 - 2019

- Provided design, installation, and technical support across all network infrastructures.
- Ensured business continuity through robust disaster recovery site functionality.
- Converted business requirements into technical network specifications for tailored solutions.
- Implemented innovative improvements to deployed infrastructure, enhancing operational efficiency.
- Mentored team members and identified development needs to foster technical growth.

Customer Implementation Engineer

MTN Business

2015 - 2017

- Handled administration and maintenance of corporate client infrastructure, including LAN, WAN, and internet connectivity.
- Collaborated with project managers and customer relations managers to address in-flight projects and customer needs.
- Highlighted and executed new initiatives to improve customer network performance and security.

Network Administrator

Investec

2012 - 2015

- Provided remote management and technical support for client networks using advanced network management tools.
- Drafted monthly progress reports detailing fault resolution and incident management.
- Managed last mile provider outages, ensuring timely updates and resolution.

Network Operations Engineer

Dimension Data

2008 - 2012

- Accountable for problem resolution and incident reporting across client networks.
- Ensured seamless network connectivity and security for corporate clients.
- Collaborated with cross-functional teams to deliver high-quality network operations and support.

KEY ACHIEVEMENTS

- Successfully architected and delivered large-scale enterprise network solutions for major corporates.
- Implemented zero-trust security frameworks and advanced network access controls, significantly reducing risk exposure.
- Led cross-functional teams in the deployment of MPLS, VPLS, and VxLAN technologies, enhancing network scalability.
- Achieved CCIE Security and CCIE Enterprise Infrastructure certifications, demonstrating technical excellence.
- Awarded Certified Information Security Manager (CISM) for outstanding information security governance.
