

Juan Charlventer

Azure Cloud Architect

CORE SKILLS

- Microsoft Azure
- FinOps
- Cisco CCIE Data Centre
- Cisco ACI
- Cisco SDN
- Cisco Nexus
- Metro Ethernet
- VMware vSphere
- VMware ESXi
- VMware VCP-DCV
- VMware VCP-NV
- Hyper-V
- Oracle Virtual Machine
- FlexPod
- NetApp NCDA
- NetApp NCIE
- Veeam Backup & Recovery
- HP AIS StorageWorks
- HP Data Protector
- Windows Server 2003/2008
- Automation & Orchestration

CERTIFICATIONS

- FinOps Certified Practitioner
- Azure Cloud Solutions Architect Expert
- Cisco Certified Internetworking Engineer (CCIE) Data Center
- VMware Certified Professional - Network Virtualization
- VMware Certified Professional - Data Center Virtualization
- NetApp Certified Implementation Engineer (NCIE-SAN)
- NetApp Accredited Storage Architect Professional
- Cisco Hyperflex Implementation Engineer
- Cisco Certified Network Professional (CCNP) Data Center
- Riverbed Certified Solutions Associate - Storage Delivery

PROFESSIONAL SUMMARY

A highly accomplished Hybrid Cloud Architect with over 11 years of experience in designing and implementing secure, scalable, and cost-effective IT solutions. Holds a unique combination of elite certifications, including Cisco Data Centre CCIE, VMware Double VCP, and Azure Cloud Architect Expert. Specialises in hybrid cloud strategies, enterprise networking, virtualisation, and FinOps, with a proven track record of delivering innovative solutions that optimise performance, reduce costs, and maximise ROI. Adept at collaborating with stakeholders to align technical solutions with business objectives, ensuring a competitive edge in the market.

PROFESSIONAL EXPERIENCE

Azure Cloud Architect

Deloitte Consulting

March 2023 - Present

- Designed and implemented a secure and scalable cloud infrastructure on Azure, enabling the migration of over 20 on-premise applications and reducing costs by 25%.
- Successfully migrated a critical application to Azure, achieving a 30% improvement in performance and a 15% reduction in downtime.
- Reduced cloud costs by 10% through optimisation strategies such as rightsizing instances and implementing resource tagging.
- Led the development of a cloud-based disaster recovery solution to ensure business continuity.
- Mentored and trained team members on Azure technologies, fostering knowledge sharing and upskilling.

Consultant

Afrocentric Technologies

February 2023 - Present

- Acted as a Hybrid Cloud Strategy Consultant, assisting clients in developing and implementing hybrid cloud strategies.
- Evaluated current infrastructure, applications, and workloads to determine the feasibility of hybrid cloud solutions.
- Developed and maintained hybrid cloud architecture blueprints addressing client business and technical requirements.
- Provided expertise and guidance on cloud best practices, security, and governance.

Practice Lead: Infrastructure as a Service

Altron Systems Integration

May 2021 - January 2023

- Built and led the creation of the business strategy to deliver hybrid-cloud solutions to market.
- Developed and owned the customer roadmap to guide clients on their digitisation and hybrid-cloud journeys.
- Managed relationships with vertical sales leaders, account managers, and customers, acting as a trusted advisor.

- Achieved defined targets and budgets for the practice.

Technical Data Centre Solutions Architect / Pre-Sales

Altron Bytes Systems Integration

January 2012 - May 2021

- Provided technical expertise in analysing client requirements, recommending solutions, and assisting sales with proposals, quotations, and RFPs.
- Translated business strategies into target architectures and roadmaps.
- Assisted customers in designing solutions around XaaS, IaaS, PaaS, on-premise cloud, and hybrid cloud.
- Maintained client relationships as a trusted technical advisor.
- Specialised in Cisco UCS, VMware, NetApp, and FlexPod technologies.

Server Engineer

New Generation Solutions

2009 - 2010

- Provided top-level support and served as a technical escalation point for complex issues related to Windows Server 2003/2008.
- Designed, developed, documented, and implemented processes and procedures to address error conditions effectively.

Owner / Engineer

VenCon Solutions

2004 - 2009

- Provided top-level support and served as a technical escalation point for complex issues related to Windows Server 2003/2008.
- Collected and analysed capacity data for planning and proactive resolution of issues.

KEY ACHIEVEMENTS

- Achieved Cisco Systems 'Unlocking the Power of Data' award for EMEA in 2019.
- Recognised as NetApp Champion of the Year for EMEA in 2018.
- Successfully reduced cloud costs by 10% through FinOps optimisation strategies.
- Designed and implemented a cloud-based disaster recovery solution, ensuring business continuity.
- One of the few professionals globally to hold both Cisco Data Centre CCIE and VMware Double VCP certifications.
